GENERAL RULES

24. Service Classification Riders (Available on Request) - Continued

RIDER J - BUSINESS INCENTIVE RATE - Continued

(A) Applicability – Continued

(5) Restrictions as to the Availability of the Rider

Service under this Rider shall not be available as follows:

- (a) to Customers receiving service under Special Provision D or H of SC 9 or Rider Y;
- (b) where service is furnished solely or predominantly for telephone booths, warning lights, bus stop shelters, signboards, cable television and telecommunication local distribution facilities, or similar structures or locations;
- (c) to a building or premises where 25 percent or more of the square footage of the premises is used on a permanent basis for residential purposes, unless (i) the residential space is separately metered or (ii) the Customer receives high-tension service and applies for Rider J as a Biomedical Research Customer;
- (d) for public light and power in multi-tenanted residential buildings, or for construction purposes, or for activities of a temporary nature as described in General Rule 5.2.7;
- (e) to residential-type premises where the account is in the name of a non-residential entity, such as apartments for renting purposes;
- (f) to any Customer eligible for service under SC 1 or SC 7, such as a corporation or association organized and conducted in good faith for religious purposes; or
- (g) to retail establishments, restaurants, and hotels applying for service under section (A)(2)(b) of this Rider and to energy intensive facilities that generate relatively few new jobs, such as web-hosting centers, data centers and data switching facilities taking service on or after April 1, 2001. This subsection shall not restrict the availability of this Rider to energy intensive facilities where such facilities are part of a larger facility used in the ordinary course of business, such as corporate computer centers. Governmental economic development agencies shall have the discretion to allocate power available under this Rider to energy intensive facilities based upon factors other than the amount of anticipated electric demand, provided that a compelling reason to do so can be shown.
