Applications made on and after April 1, 2008, for premises located within 250 feet of a steam main in the Borough of Manhattan must include information about the Customer's electric and/or hybrid electric chilling equipment, including its nameplate rating and energy efficiency information. For Customers requesting service by virtue of the receipt of a Comprehensive Package of Economic Incentives, the application shall include a letter from the governmental economic development agency negotiating the package recommending acceptance for Rider J service.

A Business Incubator may apply for service under this Rider at any time. Such Business Incubator must provide: (i) documented proof of funding or other support from New York City, Westchester County, other government entity, or another entity whose mission includes development of businesses in New York City or Westchester County; (ii) a certificate of incorporation or formation or its equivalent; and (iii) an analysis of the amount of electricity needed.

Approval of an application will be contingent upon the Customer's receipt of economic development benefits and ability to meet other criteria established under this Rider. Except for applications by Business Incubators or Business Incubator Graduates, applications to commence service under this Rider will be accepted until one day before commencement of the rate plan adopted in Case 13-E-0030. Applications from Business Incubators and Business Incubator Graduates will be accepted through March 31, 2015. Subject to the consent of the Public Service Commission, applications for service prior to such date will not be accepted if the Company determines that the rate reductions provided hereunder are no longer cost justified.
