36. OTHER CHARGES AND ADJUSTMENTS

The following charges and adjustments shall be applied prior to the application of the tax rates applicable within the municipality where the customer takes service, pursuant to General Information Section 30.

A. **System Benefits Charge (SBC)**

The System Benefits Charge (SBC) is designed to recover the costs of environmental and public policy programs approved for SBC funding by the Public Service Commission and will be applied to the energy (kWh) deliveries on the bills of all full service and delivery service customers served under this Schedule. The SBC factor will be determined annually, stated in whole \$0.00001 amounts per kilowatthour and will be the same for all applicable Service Classifications. A reconciliation of SBC recoveries (eleven months actual, one month forecast), with the target amount, will be submitted by the Company to the Public Service Commission on or before December 15 of each year. Any over or under recoveries will be included in the development of the following year's SBC rate.

Not less than fifteen days prior to a proposed change in the SBC, a Statement showing the SBC and the effective date will be filed with the Public Service Commission apart from this Schedule. Such Statement shall be made available to the public at Company offices.

B. **Electric Bill Credit**

The Electric Bill Credit (EBC) is designed to return to customers \$20.061 million of the projected electric regulatory liability as of June 30, 2015 over the twelve month period ending June 30, 2016. The EBC will be developed on a service classification or sub-classification basis from the forecasted billing units for the twelve months ended June 30, 2016.
