### GENERAL INFORMATION

## II. Rules and Regulations (continued):

### 4.I ESCO-Initiated Suspensions (Continued)

3. Upon the receipt of payments from the customer such that the amount paid by the customer to the ESCO, plus the amounts previously paid to the ESCO, plus any charges paid to the Company for distribution service is equal to or greater than the amount the customer would have paid if both natural gas service and local distribution service had been purchased from the Company on a bundled basis during the period the arrears giving rise to the suspension accrued. This calculation will be performed in the customer information system for each billing period by changing the rate code on the original bill from a transportation rate to a firm rate. The Company will prepare for the ESCO such bill calculation for a charge to the ESCO of \$6.86 for each billing period included in the calculation

### C. Reconnection

Whenever circumstances beyond the Company's control prevent reconnection of gas service within 24 hours of any of the events specified in this section, gas service shall be reconnected within 24 hours after those circumstances cease to exist.

When service is reconnected during normal working hours from 8:00 a.m. to 4:00 p.m. local time, Monday through Friday, excluding holidays, a \$14.00 reconnection charge will be assessed to the customer.
