## GENERAL RULES

### 24. Service Classification Riders (Available on Request) – Continued

#### RIDER U – DISTRIBUTION LOAD RELIEF PROGRAM - Continued

##### F. Applications and Term of Service – Continued

7. If a Direct Participant or Aggregator requests to operate Electric Generating Equipment for Load Relief purposes under this Rider, the application must state generator information, including the unit's serial number, nameplate rating, manufacturer, and date of manufacture, and the Company has approved the interconnection of such equipment. Furthermore, participants enrolled in a NYISO market-based program offered by the Company, NYPA or other entity, such as the Day-ahead Demand Response Program or the Demand-Side Ancillary Service Program, must provide the Company with their NYISO generator identification number, under a confidentiality agreement, and give the Company the ability to view their market participation activity. This information will be used to verify the times of participation in these other programs to prevent double-payment during concurrent events.
8. Customers who take service under Rider R are not eligible to participate in this program.
9. Direct Participants and Aggregators must meet the metering requirements specified in section E.
