Issued in compliance with order in Case 13-E-0030 dated 02/21/2014

Leaf: 249.1  
Revision: 4  
Superseding Revision: 3

## GENERAL RULES

### 24. Service Classification Riders (Available on Request) – Continued

#### RIDER R - Net Metering for Customer-Generators - Continued

##### F. Remote Net Metering

1. Customers who take service under this Rider may apply for Remote Net Metering (i.e., to apply net energy produced by their generating equipment to their other electric accounts) if: (a) they are non-residential Customers with farm waste, solar, wind, micro-hydroelectric, or fuel cell electric generating equipment; or (b) they are residential Customers with Farm Operations that have farm waste, wind, solar, micro-hydroelectric, or fuel cell electric generating equipment.

Remote Net Metering is subject to the following conditions:

- a. The account for electric service at the premises where the electric generating equipment is located shall be designated the “Host Account.” The account(s) to which net energy is applied shall be designated the “Satellite Account(s).” All Satellite Accounts must be in the same NYISO zone as the Host Account. A Satellite Account shall have only one Host Account, and such Satellite Account shall not be a net metered customer-generator nor take service under SC 11 nor be billed under Standby Service rates. If a customer is served under Special Provision 8 of the PASNY Rate Schedule, the Customer may designate a Satellite Account only for requirements in excess of that served under the PASNY Rate Schedule.
- b. The Host Account and Satellite Account(s) shall be established in the same Customer name and located on property owned or leased by the Customer. The Company reserves the right to require the Customer to prove that the properties served by the Host Account and all Satellite Accounts are owned or leased by the same Customer.
- c. The Customer shall designate in its initial application for remote net metered service the Host Account and Satellite Account(s) that will be remote net metered. The Customer may designate additional Satellite Accounts or remove existing Satellite Accounts once per year, with the new designations to take effect commencing with the January bill issued on the Host Account. The Customer shall designate whether all or a portion of any net energy credit remaining after being applied to the Host Account's bill shall be applied to the Satellite Account(s).
