## **GENERAL INFORMATION**

## 3. EXTENSION OF COMPANY FACILITIES TO SERVE CUSTOMER (Cont'd)

## A. PROVISION OF GAS SERVICE (Cont'd)

- (4) Customer Charges for Additional Facilities
  - (a) If, in order to provide service to an applicant, the Company must install mains and appurtenant facilities in addition to those required to be provided without charge under Rule 3.A.3, the Company shall impose a surcharge subject to the following provisions:
    - (i) The surcharge relating to mains and appurtenant facilities including return, depreciation, taxes and maintenance shall not exceed 20% per year of the actual reasonable cost of such facilities that exceeds the portion which the Company is required to install without charge to an applicant, if the Company lays a main of four inches or less in nominal diameter (in the case of low pressure distribution) or of two inches or less in nominal diameter (in the case of high pressure distribution). If the Company lays a main greater than four inches in nominal diameter (in the case of low pressure distribution) or greater than two inches in nominal diameter (in the case of high pressure distribution), the surcharge shall not exceed 20% per year of the estimated reasonable cost of a four-inch main (in the case of low pressure distribution) or a two- inch main (in the case of high pressure distribution), unless the estimated consumption of the proposed customer(s) requires the installation of a larger-sized main, in which event the surcharge shall not exceed 20% per year of the actual reasonable cost of such main. The surcharge shall commence when gas service is first available to an applicant and shall be paid ratably for each billing period.
