Revision: 4
Superseding Revision: 3

GENERAL RULES

24. Service Classification Riders (Available on Request) – Continued

RIDER R - Net Metering for Customer-Generators - Continued

G. Charges and Credits - Continued

2. Credits to a Customer Who Supplies Net Energy to the Company

a. For Customers Billed Under Energy-only Rates:

- (i) For Customers with micro-CHP generating equipment or fuel cell electric generating equipment at their premises and non-residential Customers with farm waste generating equipment at their Non-farm Location, any kWhr of net energy provided to the Company during the billing period will be converted to a monetary credit based on the Company's Avoided Energy Cost for the month. The monetary credit will be applied towards any outstanding customer or other charges in the billing period.

Any remaining monetary credit will be carried forward to the succeeding billing period unless the Customer participates in Remote Net Metering for fuel cell electric generating equipment at its non-residential premises or Farm Operation or for farm waste generating equipment at its Non-farm Location, in which case any remaining monetary credit on the Host Account will be applied as described in paragraph G.2.c.

(ii) For all other Customers:

Any kWhr of net energy provided to the Company during the billing period will be applied as a kWhr credit towards any net kWhr used during the succeeding billing period. If the Customer is billed under TOD rates, the kWhr credit will be determined and applied, as appropriate, to each time period.

Any remaining kWhr credit will be carried forward to the succeeding monthly billing period unless the Customer participates in Remote Net Metering.

If the Customer participates in Remote Net Metering, any kWhr of net energy provided to the Company by the Host Account shall be converted to its equivalent monetary value at the per-kWhr rate applicable to the Host Account's Service Classification and applied, along with any prior period remaining monetary credits, as a direct monetary credit to the Host Account's electric bill for any outstanding energy, customer, or other charges. Any remaining monetary credit on the Host Account will be applied as described in paragraph G.2.c.
