## GENERAL INFORMATION

### 13. SERVICE CLASSIFICATION RIDERS (Continued)

#### RIDER N (Continued)

#### NET METERING FOR CUSTOMER GENERATORS

#### BILLING (Continued)

(C) (Continued)

- (2) For Micro-CHP customer-generators, fuel cell customer-generators and non-residential customer generators with farm waste generating equipment at their Non-Farm Location, the net sale amount in kWh will be converted to a monetary credit based on the rate specified in Special Provision (F) of Service Classification No. 15. The monetary credit will be applied on the customer's electric bill towards any outstanding customer or other charges in the billing period. For fuel cell customer-generators that do not participate in Remote Net Metering, any remaining monetary credit will be carried forward to the succeeding billing period.

For a fuel cell customer-generator participating in Remote Net Metering, all or a portion of the remaining monetary credit, as designated by the customer in its application for remote net metered service, shall be applied to the Satellite Account(s) in the order in which the Satellite Account(s) are billed until such time that the monetary credit is reduced to zero or all Satellite Account(s) have been credited. If more than one Satellite Account bills on the same day, the monetary credit shall be applied to the Satellite Accounts in order of kWh usage from highest to lowest.

If a monetary credit remains after all Satellite Accounts are credited the remainder of the monetary credit shall be carried forward to the succeeding billing period on the Host Account.
