

PSC NO: 10 – Electricity  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 05/01/2015

Leaf: 265  
Revision: 6  
Superseding Revision: 5

## GENERAL RULES

### 24. Service Classification Riders (Available on Request) - Continued

#### RIDER S – COMMERCIAL SYSTEM RELIEF PROGRAM - Continued

##### J. Reservation Payment Option - Continued

##### 2. Penalties and Adjustment for Non-performance - Continued

##### b. Performance Factor

When more than one Planned Event and/or Test Event is called in a network during the month, the average of the Performance Factors of all events for a Direct Participant or Aggregator in the network is the Performance Factor for that month.

Except for participants in the Three-Year Incentive Period, Direct Participants and Aggregators may increase the kW of contracted Load Relief in subsequent Capability Periods above their previously contracted kW of Load Relief, provided their most recent Performance Factor was 1.00. The Performance Factor is rounded to two decimal places. If the Direct Participant or Aggregator does not have a historical Performance Factor in the network, the Performance Factor is 1.00.

In calculating the Performance Factor for participants in the Three-Year Incentive Period that have requested a reduction in the pledged Load Relief after completing an energy efficiency project, pursuant to section J.5:

- i. The original pledged Load Relief will be used if an M&V report is not received by the Company by November 15 following the end of the Capability Period for which the load reduction was requested, or by any subsequent deadline as described in section J.5, that demonstrates kW savings during the Contracted Hours.
- ii. The reduced pledged Load Relief will be used if the M&V report demonstrates kW savings.

Issued by: Robert Hoglund, Senior Vice President & Chief Financial Officer, New York, NY
