Re: Proposed Tariff Revisions – General Housekeeping

Dear Secretary Burgess,

National Fuel Gas Distribution Corporation (“Distribution” or the “Company”) hereby submits the following revisions to its tariff, P.S.C. No. 9 – GAS:

<u>Section No.</u>	<u>Leaf No.</u>	<u>Revision No.</u>	<u>Superseding Revision No.</u>
0	2	2	1
0	130	5	4

By way of background, this is a filing to make general housekeeping corrections to Leaf 2 and Leaf 130 of the Company’s tariff, as further described herein. These changes have a proposed initial effective date of May 31, 2019.

The proposed revision to Leaf 2 corrects a typographical error, by adding a page number range that was previously missing from the Company’s Table of Contents.

The proposed revision to Leaf 130 adds “SC 10” to the listing of Designated Service Classifications for the Conservation Incentive Program (“CIP”) Cost Recovery Mechanism. By way of background, Service Classification 10 (“SC 10”) was already included on the Company’s currently effective CIP Statement (i.e., CIP Statement No. 21). The proposed change will help ensure that Leaf 130 matches the Company’s CIP statement going forward. It is also important to note that SC 10 represents Transitional Propane Service, and the Company does not currently have any customers enrolled in this Service Classification.

Concurrent with this filing, Distribution respectfully requests a waiver from the requirements of Public Service Law §66(12) and 16 NYCRR §720-8.1, pertaining to newspaper publication. The proposed tariff changes are being made for consistency and clarification purposes, the revisions are largely non-substantive in customer effect, and therefore the expense of publication would not serve the public interest.

If you have any questions regarding the Company's tariff filing, please contact me at your convenience.

Respectfully submitted,

Evan M. Crahen
