RE: Case 18-E-0071, In the Matter of Offshore Wind Energy

Dear Secretary Burgess:

Consolidated Edison Company of New York, Inc. (“Con Edison” or the “Company”) is filing with the Public Service Commission (the “Commission”) amendments to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Electric Tariff”), applicable to its customers in the City of New York and the County of Westchester.

The revised Electric Tariff Leaves, which are identified below, are filed to become effective on September 28, 2018:

<u>Leaf No.</u>	<u>Revision No.</u>	<u>Superseding No.</u>
336.1	2	1
356	6	5

Reason for Filing

This filing is made pursuant to the Commission’s Order Establishing Offshore Wind Standard and Framework for Phase 1 Procurement, issued and effective July 12, 2018, in Case 18-E-0071 (the “Order”). In furtherance of the Renewable Energy Standard, the Commission adopted the goal of procuring Offshore Wind Renewable Energy Credits (“ORECs”) associated with 2.4 GW of offshore wind capacity by 2030.

Accordingly, the Order (at Ordering Clause 8 on page 63 of the Order) authorized the electric utility companies¹ to collect the offshore wind (“OSW”) price paid to NYSERDA to acquire the ORECs to be offered, including an approved adder to cover the administrative costs and fees incurred by NYSERDA to administer the OSW program, from all Full Service Customers.

¹ Specifically, Central Hudson Gas and Electric Corporation; Con Edison; Orange and Rockland Utilities, Inc.; Niagara Mohawk Power Corporation d/b/a National Grid; New York State Electric & Gas Corporation; and Rochester Gas and Electric Corporation.

The Order also directed the electric utility companies to establish a financial backstop mechanism related to ORECs.

As a result, the Company is filing tariff revisions in compliance with the Order to be effective on September 28, 2018.

Tariff Changes

Pursuant to the Order, the Company is filing changes to its Electric Tariff as described below.

- General Rule No. 25.4, “Clean Energy Standard Supply Surcharge” has been amended to include an additional component to collect the costs associated with ORECs from Full Service Customers.
- General Rule No. 26.5, “Clean Energy Standard Delivery Surcharge” has been amended to include activities related to Offshore Wind Renewable Energy Credits (“ORECs”) from qualifying offshore wind energy facilities as part of the Backstop Charges.

Conclusion and Notice

As directed by Ordering Clause 8 of the Order, the Company is filing changes to the Electric Tariff to become effective on September 28, 2018. Pursuant to Ordering Clause 9 of the Order, the Commission has waived the requirement for newspaper publication.

Sincerely,

/s/ William A. Atzl, Jr.
Director
Rate Engineering Department
