RE: Case 08-W-1201 – Heritage Hills Water Works Corp. – Year 8 of Meter
Replacement Program

Dear Mr. Brassard:

This letter is in response to the October 26, 2017, request of Heritage Hills Water Works Corp. (the Company) to increase its quarterly Meter Replacement Program (MRP) surcharge in calendar year 2018 from a rate of \$3.40 per customer to \$3.78 per customer. The Company included documentation supporting the costs incurred to replace 176 meters in calendar year 2017.

Staff of the Department of Public Service (DPS) reviewed the Company's filing for compliance with the Commission Order issued November 13, 2009 in Case 08-W-1201, verified that the Company replaced 176 meters in 2017, and found that the costs incurred to replace these meters were reasonable. Staff notes that the calculation of the net value for retired meters excluded a single meter; this has a nominal impact, however, and does not affect the final surcharge. In conclusion, Staff verified that the revenue requirement associated with the cost to replace 176 meters in 2017 was properly calculated and that an increase of the current quarterly MRP surcharge from \$3.40 per customer to \$3.78 per customer is appropriate.

Marc A. Brassard

Accordingly, the Company may file its MRP Surcharge Statement No. 8 to its Electronic Tariff Schedule P.S.C. No. 3 – Water, containing the \$3.78 per customer quarterly surcharge, to become effective January 1, 2018. Should you have any questions regarding Staff's findings, please contact me at (518) 408-1061.

Sincerely,
