RE: Case 20-E-0547, Rider T – Commercial Demand Response Programs

Dear Secretary Phillips:

Consolidated Edison Company of New York, Inc. (“Con Edison” or the “Company”) is filing with the Public Service Commission (the “Commission”) amendments to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Tariff”), applicable to its customers in the City of New York and the County of Westchester.

The revised Tariff leaves, which are identified below, are filed to become effective on May 1, 2021.

<u>Leaf No.</u>	<u>Revision No.</u>	<u>Superseding Revision No.</u>
268	11	9
270	9	7
271	6	4
272	10	8
274	6	4
276	7	5
278	10	8
280	10	8
281	11	10
281.1	1	

Reason for Filing

The Commission’s Order Adopting in Part, Modifying in Part, and Rejecting in Part Commercial Demand Response Program Changes, issued and effective on March 22, 2021, in Case 20-E-0547 (the “Order”), approved, with modifications, the Company’s proposed changes to its Rider T – Commercial Demand Response Programs filed on November 2, 2020.

Tariff Changes

Pursuant to the Order, the Company is making the following changes to Rider T:

- On Leaves 268 and 270, the day-ahead temperature variable threshold for activation of the Commercial System Relief Program (“CSRP”) and for the definition of Planned Event, was changed from 83 degrees to 84 degrees.
- Leaf 272 has been amended to state that, for the 2021 Capability Period only, the Company will allow revisions to the kW of contracted Load Relief of previously enrolled customers up until June 1, 2021. In cases where these revisions result in a lower kW of contracted Load Relief, the new kW of contracted Load Relief will apply for Event Performance Factor and Reservation Payment calculation purposes for the entire Capability Period. Otherwise, the new kW of contracted Load Relief will be applied beginning the next month.
- On Leaf 280, the Distribution Load Relief Program monthly Performance Factor, at or below which it will be reset to 0.00, was set to 0.25, consistent with the CSRP.

In addition, the Company is including the changes filed on November 2, 2020 that were approved per the Order.

Conclusion and Notice

Pursuant to Ordering Clause 1 of the Order, the Company is filing these changes to become effective on May 1, 2021, on not less than fifteen days’ notice. Pursuant to Ordering Clause 3 of the Order, the Commission waived the requirement for newspaper publication of these changes.

Sincerely,

/s/ William A. Atzl, Jr.
Director
Rate Engineering Department
