**RE: Case 15-E-0082, Proceeding on Motion of the
Commission as to the Policies, Requirements and
Conditions for Implementing a Community Net
Metering Program.**

Dear Secretary Phillips:

Consolidated Edison Company of New York, Inc. (the “Company”) is filing with the Public Service Commission (the “Commission”) amendments to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Electric Tariff”), applicable to its customers in the City of New York and the County of Westchester. The Company is also filing amendments to its Schedule for PASNY Delivery Service, P.S.C. No. 12 – Electricity (the “PASNY Tariff”),¹ applicable to delivery by the Company of power and associated energy to Authority Public Customers under the PASNY Tariff. The revised Electric Tariff and PASNY Tariff leaves, which are identified below, are filed to become effective on April 1, 2021.

Tariff Changes

The Commission’s Order Clarifying Community Distributed Generation Membership Requirements, issued February 12, 2021 in the above referenced proceeding (the “Order”), directed each utility to file tariff amendments clarifying the requirement that, with several exceptions, a CDG project may allocate no more than 40 percent of its output to customers with annual average billed demand greater than 25 kilowatts (kW), as described in the Order. The Order also “grandfathers” any project that “qualifies” as of the issuance date of the Order, regardless of whether the 25 kW threshold was based on customer size or subscription allocation size. Pursuant to the Order, the Company has modified the Electric Tariff and PASNY Tariff to include these clarifications.

Conclusion and Notice

As directed by Ordering Clause 2 of the Order, the tariff amendments are filed to become effective on not less than 15 days’ notice. As specified in Ordering Clause 3 of the Order, the Commission has waived the requirements for newspaper publication.

Respectfully submitted,

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.
