Honorable Michelle L. Phillips
Secretary to the Commission
State of New York
Public Service Commission
Three Empire State Plaza
Albany, New York 12223

RE: Case No. 18-E-0138, Proceeding on Motion of the
Commission Regarding Electric Vehicle Supply Equipment
and Infrastructure.

Dear Secretary Phillips:

Orange and Rockland Utilities, Inc. (the "Company") is filing with the Public Service Commission (the "Commission") amendments to its Schedule for Electric Service, P.S.C. No. 3 – Electric ("Electric Tariff").

The revised Electric Tariff leaf, which is identified below, is filed to become effective on December 22, 2019:

<u>Leaf No.</u>	<u>Revision No.</u>	<u>Superseding No.</u>
148.1	3	2

Reason for Filing

This filing is made in compliance with the Commission's Order Establishing Framework For Direct Current Fast Charging Infrastructure Program, issued February 7, 2019, in Case 18-E-0138 (the "Order"). In the Order, the Commission adopted a per-plug incentive program to encourage Direct Current Fast Charging ("DCFC") station development and identified unencumbered System Benefits Charge ("SBC") funds available to fund the program. Since not all DCFC station developers who may be eligible for the per-plug incentive program have contributed to the SBC, the Order required the Company to develop a surcharge mechanism ("DCFC Surcharge") to be assessed on all non-SBC paying customers. Currently, customers exempt from paying the SBC are customers served under the Recharge New York ("RNY") Program (for all power and energy delivered under the RNY program, up to the RNY allocation).

Tariff Changes

Pursuant to the Order, the Company is revising Rider B – NYPA – Recharge New York (RNY) Program Rider to specify that Rider B customers shall be assessed the DCFC Surcharge for all power and energy delivered under the RNY Program, up to the RNY allocation. It also describes how this surcharge was developed by dividing the Company's maximum DCFC Incentive Payments of \$1,664,000 as shown in Appendix A of the Order by the total annual forecasted delivery kWh. The DCFC Surcharge will be effective for a one-year period beginning January 1, 2020.

Conclusion and Notice

As directed by Ordering Clause 11 of the Order, the Company is filing changes to the Electric Tariff on November 1, 2019, effective December 22, 2019, to implement the DCFC Surcharge beginning January 1, 2020. Pursuant to Ordering Clause 13 of the Order, the Commission waived the requirement for newspaper publication of these changes.

Any questions regarding this filing can be directed to Cheryl Ruggiero at (212) 460-3189.

Very truly yours,

/s/

William A. Atzl, Jr.
