RE: Case 15-E-0751 – In the Matter of the Value of Distributed Energy Resources

Case 15-E-0082 – Proceeding on Motion of the Commission as to the Policies, Requirements and Conditions for Implementing a Community Net Metering Program

Dear Secretary Phillips:

The enclosed tariff amendments, issued by Niagara Mohawk Power Corporation d/b/a National Grid (the “Company”), are being transmitted as a supplemental filing in compliance with the March 9, 2017 *Order on Net Energy Metering Transition, Phase One of Value of Distributed Energy Resources, and Related Matters*¹ issued by the New York State Public Service Commission (“Commission”) in the above case numbers (“Order”).

Identification of Tariff Amendments:

Ninth Revised Leaf No. 218
Ninth Revised Leaf No. 219
Original Leaf No. 219.1
Third Revised Leaf No. 220.0.1
To P.S.C. No. 220 Electricity
Effective: November 25, 2019

In the above Order, the Commission established that new mass market, onsite projects will be eligible for Phase One Net Energy Metering (“NEM”) until the earlier of January 1, 2020 or a subsequent Commission order addressing such projects in this proceeding.² Furthermore, the Commission agreed with the New York Department of Public Service Staff recommendation that, “should a new compensation methodology not be in place by January 1, 2020, projects put into service after that date would receive NEM compensation only until the new compensation methodology is developed and implemented and would then be transferred to the new compensation methodology.”³ Given that the Commission has yet to approved a new compensation methodology, the Company is revising its tariff leaves to accommodate projects that become eligible or in-service after January 1, 2020.

¹ Cases 15-E-0751, *et al. Order on Net Energy Metering Transition, Phase One of Value of Distributed Energy Resources, and Related Matters* (issued March 9, 2017).

² *Id.*, p. 14.

³ *Id.*, p. 83.

Ordering Clause No. 1 of the Order directed utilities to file tariff amendments on no less than five days' notice with these supplemental leaves effective on November 25, 2019. As directed in Ordering Clause No. 23 of the Order, the requirements of PSL §66 (12) (b) and 16 NYCRR §720-8.1 concerning newspaper publication of tariff amendments are waived for this filing.

Attachment 1 contains the Company's redlined tariff leaves showing where the changes to the above leaves have occurred. Please advise the undersigned of any action taken regarding this filing.

Respectfully submitted,

/s/ Carol Teixeira
