RE: CASE 06-G-1185 – Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of The Brooklyn Union Gas Company d/b/a National Grid NY– Revenue Decoupling Mechanism

CASE 16-G-0059 - Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of The Brooklyn Union Gas Company d/b/a National Grid NY

Dear Secretary Burgess:

In accordance with the Commission’s “Order Concerning Proposed Revenue Decoupling Mechanism” (Order 1) dated December 22, 2009 in Case 06-G-1185 and “Order Adopting Terms of Joint Proposal and Establishing Gas Rate Plans” (Order 2) dated December 16, 2016 in Case 16-G-0059, The Brooklyn Union Gas Company d/b/a National Grid NY (the “Company”) hereby submits:

Statement No. 11 – Statement of Revenue Decoupling Mechanism
Statement No. 22 – Statement of System Benefits Charge
Schedule to Gas Service, P.S.C. No. 12-GAS
Effective Date: May 1, 2019

Order 1 approved the Joint Proposal (“JP”) filed by the Company on September 25, 2009 to implement a Revenue Decoupling Mechanism for SC1B (JP Section VI.1.B) . Order 2 approved the continuation of the SC1B Revenue Decoupling Mechanism and the implementation of a Revenue Decoupling Mechanism for SC2 and SC3 (JP Section IV.3.10 and Section IV.6.1.11) . The Company is submitting its Revenue Decoupling Mechanism Reconciliation for SC1B (Attachment A), a “Customer Count Proxy Analysis” for SC1B (Attachment B), and its Revenue Decoupling Mechanism Reconciliation for SC2 and SC3 (Attachment C).

Honorable Secretary Burgess
Page 2
March 15, 2019

The calendar year 2018 SC1B reconciliation shows an under-recovery of the anticipated Allowed Delivery Service Revenues of \$17,171,511, including interest. The RDM reconciliation of calendar year 2016 resulted in an under-collection of \$58,939.54 including interest. This results in a total reconciliation of \$17,230,451, including interest and a Revenue Decoupling Mechanism factor surcharge of \$0.0228/therm. The credit will be included in the Delivery Rate Adjustment for Service Classification Nos. 1B, 1BR, 17-1B and 17-1BR effective May 1, 2019.

The SC1 Customer Count Proxy Analysis compares 30-day equivalent bills to the average annual number of residential heating customers measured by open and active meters. This comparison results in a 1% difference in the customer counts.

The calendar year 2018 SC2 reconciliation shows an over-collection of the anticipated Allowed Delivery Service Revenues of \$1,963,481, including interest. This results in a Revenue Decoupling Mechanism factor credit of \$0.0066/therm. The surcharge will be included in the Delivery Rate Adjustment for Service Classification Nos. 2A, 2B, 5-2A and 5-2B effective May 1, 2019.

The calendar year 2018 SC3 reconciliation shows an over-recovery of the anticipated Allowed Delivery Service Revenues of \$747,978, including interest. This results in a Revenue Decoupling Mechanism factor credit of \$0.0223/therm. The credit will be included in the Delivery Rate Adjustment for Service Classification Nos. 3A, 3B, 5-3A and 5-3B effective May 1, 2019.

In addition, the Company will be updating its System Benefits Charge (“SBC”) to recover lost revenues plus interest from all non-RDM service classifications. The lost revenues plus interest associated with energy efficiency programs for the period January through December 2018 for non-RDM service classifications totaled \$76,373, including interest. The resultant SBC factor applicable to all non-RDM service classifications, effective May 1, 2019 is \$0.0124/therm. The workpaper detailing this adjustment to the SBC factor is contained in Attachment D.

Please contact the undersigned if you have questions or require further information.

Respectfully Submitted,

/s/ Dawn M. Herrity
