RE: Changes to Rider T - Commercial Demand Response Programs

Dear Secretary Phillips:

Consolidated Edison Company of New York, Inc. (“Con Edison” or the “Company”) is filing with the Public Service Commission (the “Commission”) amendments to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Tariff”), applicable to its customers in the City of New York and the County of Westchester. The revised Tariff Leaves, which are identified below, are filed to become effective on February 28, 2021:

<u>Leaf No.</u>	<u>Revision No.</u>	<u>Superseding Revision No.</u>
268	8	5
270	8	7
271	5	4
272	9	8
274	5	4
276	6	5
278	9	8
280	9	8
281	9	8
281.1	0	

Tariff Changes Proposed

The Company is proposing changes to Rider T – Commercial Demand Response Programs of the Tariff to conform to the changes described in the Petition of Consolidated Edison Company of New York, Inc. for Approval of Changes to Commercial Demand Response Programs, dated November 2, 2020 (the “Petition”).

The Company proposes the following changes to Rider T: (1) allow calling of Commercial System Relief Program (“CSRP”) Events on days when heat and humidity are projected to exceed

a given threshold so that the CSRP program can contribute to managing localized system peaks on days when the system as a whole is less likely to reach a peak load threshold; (2) allow Distribution Load Relief Program (“DLRP”) program participants to differentiate their pledged demand reductions between weekdays and weekends with two separate pledges; (3) allow calling DLRP events after 6:00 pm; (4) extend emission control requirements to DLRP Participants for consistency with recently amended Department of Environmental Conservation regulations for distributed generation sources; and (5) extend changes to metering communications requirements. Further details regarding these changes are explained in the Petition.

Conclusion and Notice

The Company is filing these tariff changes to become effective on February 28, 2021. The Company will provide public notice of this filing by means of newspaper publication once a week for four consecutive weeks prior to the effective date of the proposed tariff changes. Included is a proposed form of Notice of Proposed Rule Making for publication in the State Register pursuant to the State Administrative Procedures Act.

Sincerely,

/s/ William A. Atzl, Jr.
Director
Rate Engineering Department
