Dear Secretary Burgess:

In accordance with the New York Public Service Commission's "Order Directing Investments and Allowing, In Part, Deferral Authority for Costs Associated with Incremental Capital Expenditures and Establishing a Surcharge" ("Order"), issued and effective December 15, 2014, in the above-referenced case, KeySpan Gas East Corporation d/b/a National Grid ("National Grid" or "Company") hereby submits the following tariff leaves and statement to become effective on April 1, 2015:

Ninth Revised Leaf No. 70
Third Revised Leaf No. 73.1
Original Leaf No. 73.1.1
Third Revised Leaf No. 119.52
First Revised Leaf No. 119.53
Statement of Leak Prone Pipe Surcharge
To Schedule for Gas Service, PSC NO: 1 GAS

These proposed tariff revisions are in compliance with: (i) Ordering Clause 4 of the Order, which directs the Company to create a leak prone pipe surcharge mechanism, and (ii) Ordering Clause 14 of the Order, which directs the Company to use certain revenues collected from electric generators to offset the growth capital expenditure deferral.

The Order directed the Company to file its tariff amendments implementing the surcharge mechanism and a proposal to update the Company's existing gas safety performance measures on not less than thirty days' notice to become effective April 1, 2015. The Company is filing the tariff amendments implementing the surcharge mechanism now to allow time for publication and public comment pursuant to the State Administrative Procedure Act. The Company will file its proposal to update its gas safety performance measures and to describe how customer accounts added will be calculated no later than March 1, 2015, as required by the Order.

Questions pertaining to this tariff filing may be directed to Melissa Nairn at (929) 324-4587.

Respectfully Submitted,
