

November 22, 2013

Honorable Kathleen H. Burgess, Secretary
State of New York
Public Service Commission
Office of the Secretary
Three Empire State Plaza
Albany, NY 12223

Dear Secretary Burgess:

The attached statement, issued by Niagara Mohawk, d/b/a/ National Grid ("Company"), is being transmitted for filing in accordance with the requirements of the New York State Public Service Commission ("Commission"):

Statement of Supply Service Charges No. 24

To P.S.C. No. 214 Electricity

Effective: November 27, 2013

The above statement is being filed in accordance with Rule No. 46.4-Supply Service Charges in PSC No. 220 Electricity. Attachments 1 and 2 of this filing display the derivation of these charges.

Please note that this statement includes a change to the ESRM calculation. The Company implemented a revised expense reconciliation methodology for the ESRM beginning with March 2013 rates which was intended to better align the costs and revenues. However, that change caused unintended financial impacts to the Company, so Staff and the Company have agreed to return to the original ESRM methodology beginning with December 2013 rates. This statement also continues the collection of one half of September 2013 actual supply costs that began with November 2013 rates and will continue through October 2014 rates. The adjustment is shown on Attachment 1, page 1, lines 17-19 and Attachment 2.

This Supply Service Charge Statement is to be filed with the Commission on not less than three (3) business days notice before the effective date. Supply Service Statement No.24 is effective November 27, 2013 for batch billed customers, and December 1, 2013 for calendar month billed customers.

Please direct any questions regarding this filing to the undersigned.

Sincerely,

/s/ Pamela B. Dise
