On December 12, 2013, the Companies proposed revisions to its tariffs to make the language consistent for certain tariff provisions. After further discussion with the Department of Public Service Staff, the Companies proposed additional tariff revisions to correct minor grammatical or numerical errors and add clarifying language where necessary which were filed on April 28, 2014. Since then, additional edits were needed and they are proposed in the updated revisions.

The Companies reiterate its request that the requirement of 66(12)(b) of the Public Service Law and 16NYCRR 720-8.1 as to newspaper publication be waived because the revisions do not affect any internal procedures or processes, and will not directly impact the Companies' customers.

Respectfully submitted,
