Honorable Jaclyn A. Brillling, Secretary  
State of New York  
Public Service Commission  
Office of the Secretary, 19<sup>th</sup> Floor  
Three Empire State Plaza  
Albany, NY 12223

RE: Case 14-E-0151 – Order Modifying Transition Plan and Making Other Findings *et al.*

Dear Secretary Brillling:

The attached leaves, issued by Niagara Mohawk Power Corporation, d/b/a National Grid (“Company”), are being transmitted for filing in accordance with the above order issued December 16, 2016 (“the Order”).

Third Revised Leaf No. 199.4  
Original Leaf No. 199.5  
Second Revised Leaf No. 202.3  
Original Leaf No. 202.3.1

To PSC No. 220 Electricity

Effective: April 1, 2017

On December 16, 2016, as a result of a petition filed by Borrego Solar Systems, Inc. and several supporting petitioners, the Commission issued the above order amending the Commission’s Transition Plan Order issued April 17, 2015. The Transition Plan Order defined the categories of projects at qualifying remote net metered locations that may retain monetary crediting for a term of years rather than moving them directly to volumetric crediting and successor tariffs (“grandfathered” projects). The Transition Plan Order established criteria that would allow projects to qualify for grandfathered status, including an in-service deadline of December 31, 2017, which was applied to projects that had submitted interconnection applications or met other criteria by June 1, 2015.

In the Order, the Commission granted relief from the default in-service deadline established in the Transition Plan Order where developers have pursued projects in good faith but are unable to meet the deadline due to circumstances beyond their control. The Commission adopted four criteria for retaining monetary crediting for such projects as listed in the body of this Order.

As directed by Staff of the Commission in an email dated January 23, 2017, “where necessary, the utilities must make a compliance filing if current tariffs do not comply with the four criteria outlined in the Order”. The attached leaves comply with the January 23, 2017 directive by Staff.

Attachment 1 included with this filing indicates where the changes have occurred.

Also, per letter dated February 13, 2017 to the Secretary of the Commission from Susan Vercheak, Assistant General Counsel of Consolidated Edison, the listed utilities are respectfully requesting waiver of newspaper publication for the revisions included in this compliance filing.

Please contact the undersigned of any action taken regarding this filing.

Sincerely;

*/s/ Patricia J. Rivers*
