Albany, New York 12223-1350

**RE: Case 15-E-0570, Commercial Demand Response Programs –
Commercial System Relief Program and Distribution Load Relief Program**

Dear Secretary Burgess:

Consolidated Edison Company of New York, Inc. (“Con Edison” or the “Company”) is filing with the Public Service Commission (the “Commission”) an amendment to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Tariff”), applicable to its customers in the City of New York and the County of Westchester. The revised Tariff Leaf, which is identified below, is filed to become effective on February 8, 2016:

<u>Leaf No.</u>	<u>Revision No.</u>	<u>Superseding No.</u>
273	3	2

Reason for Filing

The Commission’s Order Approving Tariff Amendments, issued and effective January 27, 2016, in Case 15-E-0570 (the “Order”), approved, with minor modification, the Company’s filing to combine Rider S – Commercial System Relief Program (“CSRP”) and Rider U – Distribution Load Relief Program (“DLRP”) into new Rider T - Commercial Demand Response Programs, to make changes to CSRP and DLRP, and to make other conforming changes, effective February 5, 2016.

This filing makes a further revision to the compliance filing made January 28, 2016. Leaf No. 273 indicates that an Aggregator may only increase the kW of contracted Load Relief in a Network for the upcoming Capability Period if the Aggregator’s most recent monthly average Performance Factor for that Network was 1.00. However, this restriction is intended to apply only to an Aggregator’s request to increase the kW of contracted Load Relief for its existing customer(s) in the Network.

Tariff Change

Leaf No. 273 has been modified to clarify the restriction on requests to increase the kW of contracted Load Relief.

Conclusion and Notice

Pursuant to Ordering Clause 1 of the Order, the Company is filing this Leaf to become effective on not less than one day's notice. Pursuant to Ordering Clause 2 of the Order, the Commission waived the requirement for newspaper publication of this change.

Sincerely,

/s/ William A. Atzl, Jr.
Director
Rate Engineering Department
