Honorable Kathleen H. Burgess  
Secretary  
New York State Public Service Commission  
3 Empire State Plaza, 19<sup>th</sup> Floor  
Albany, New York 12223

**RE: Case 15-E-0518, Recovery through the Market Supply Charge of  
Certain NYISO Tariff Charges**

Dear Secretary Burgess:

Consolidated Edison Company of New York, Inc. (“Con Edison” or the “Company”) is filing with the Public Service Commission (the “Commission”) amendments to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Tariff”), applicable to its customers in the City of New York and the County of Westchester.

The revised Tariff Leaves, which are identified below, make changes to General Rule 25.1 – Market Supply Charge (“MSC”). The Tariff Leaves have a proposed effective date of January 26, 2016:

<u>Tariff Leaf No.</u>	<u>Revision No.</u>	<u>Superseding Revision</u>
329	4	3
330	4	3

**Reason for Filing**

On September 10, 2015, the Company made a tariff filing in Case 15-E-0518 to provide for recovery through the MSC of charges recovered under the New York Independent System Operator (“NYISO”) tariff for the following: NY Transco Charges; projects approved by the Commission in Case 12-E-0503; and projects approved by the Commission in Case 13-E-0488. The effective date of that filing is currently postponed to January 26, 2016.

In response to a request from Department of Public Service Staff, the Company is submitting a revision to the MSC cost recovery provisions filed on September 10, 2015, to better accommodate the review and approval process for transmission projects by the Federal Energy Regulatory Commission (the “FERC”), the NYISO and/or the Commission.

### **Tariff Changes**

The revised tariff leaves provide for the Company to recover, through the MSC, NYISO charges allocated to the Company resulting from transmission projects approved through the FERC, NYISO and/or Commission processes (“NYISO Transmission Charges”). NYISO Transmission Charges include, for example, FERC-approved New York Transco, LLC charges, FERC-approved charges resulting from projects approved by the Commission in Case 12-E-0503, and FERC-approved charges resulting from projects approved by the Commission in Case 13-E-0488, et al. NYISO Transmission Charges will be billed in the same manner as Ancillary Services Charges and the NYPA Transmission Adjustment Charge (*i.e.*, on a per-kWh basis) and will be posted to the Company’s website.

### **Conclusion and Notice**

This filing is issued with an effective date of January 26, 2016, the same as the current effective date of the filing made on September 10, 2015. The Company requests waiver of newspaper publication, because publication was made on September 18 and 25 and October 2 and 9, 2015, of the changes filed on September 10, 2015.

A copy of this filing is being sent electronically to the active party list in Cases 15-E-0050 and 13-E-0030.

Very truly yours,  
CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

/s/ William A. Atzl, Jr.
