P.S.C. No. 19 – Electric, Schedule for Electric Service

Leaf No. 160.39.3.2, Revision 5

Addendum SIR – Standardized Interconnection Requirements, Addendum No. 13

**Purpose of the Filing**

The Companies are filing tariff amendments for the SIR Addendums in compliance with Ordering Clause No. 2 of the Order to implement changes necessary to effectuate the amendments related to non-residential farm waste and fuel cell electric generating equipment. The Companies are also filing tariff amendments in compliance with Ordering Clause No. 3 of the Order to incorporate previously approved provisions since the tariff amendments were filed<sup>1</sup>.

On May 4, 2015, amendments to the tariff to provide for the increase in the cap. The Order approved tariff changes to allow non-residential customers to install farm waste generation at their premises and be able to participate in Farm Waste net metering provisions. Additionally, the tariffs had been revised to increase the rated capacity of fuel cell electric generating equipment from 1,500 kW to 2,000 kW and be eligible for net metering. The revisions herein reflect the consolidation of the approved changes.

**Publication**

Requirements of Public Service Law Section 66 (12) (b) as to newspaper publication of the tariff revisions are waived pursuant to the Ordering Clause No. 4.

If there are any questions concerning this filing, please call Kathy Grande at (585)771-4514 or me at (607)762-8710.

Respectfully submitted,
