Public Service Commission
Office of the Secretary, 19th Floor
Three Empire State Plaza
Albany, NY 12223

RE: Case 16-E-0537 – SC2 Streetlighting – LED Update Filing

Dear Secretary Burgess:

The attached leaf, issued by Niagara Mohawk Power Corporation d/b/a National Grid (“the Company”), is being transmitted for filing in accordance with the requirements of the Public Service Commission (“Commission”), State of New York.

Tenth Revised Leaf No. 28

To P.S.C. No. 214 Electricity

Effective: January 1, 2017

Tariff Amendments

The purpose of this filing is to update the Light Emitting Diode (“LED”) wattages under PSC 214 Service Classification No. 2 – Street Lighting – Unmetered Company Owned / Company Maintained facility (“SC-2”).

On September 16, 2016, in Case 16-E-0537, the Company issued a filing to the Commission updating the estimated LED wattages that will be installed using information from the Company’s selected manufacturer.

Roadway – LED luminaire - B is being revised for an update, by the manufacturer, of the number of watts used as compared to the original specifications provided. The wattage is being revised to reflect 25 watts instead of the 28 watts as filed on Ninth Revised Leaf No. 28 which was included in the filing of September 16, 2016. This reduced luminaire wattage will result in a lower billable wattage which will more accurately reflect actual energy usage.

Attachment 1, included with this filing, shows where the change has occurred in the attached leaf.

Request for Newspaper Advertising

The Company respectfully requests waiver of the newspaper publication requirements of Public Service Law § 66(12)(b) and 16 NYCRR 720.8 because of the limited scope of this filing, which only affects municipalities seeking LED installations.

Please advise the undersigned of any questions regarding or action taken with respect to this filing.

Sincerely,

/s/ Carol Teixeira
