Purpose of Filing

The Companies are filing tariff amendments in compliance with Ordering Clause No. 4 to charge fees for providing aggregated and customer-specific data to municipalities, municipal contractors, and ESCOs under the terms and timeframes described in the Order.¹

The Companies are proposing to charge a fee to the Community Choice Aggregator (“CCA”) for services the Companies are providing. The fees shall include a fixed charge to recover estimated costs associated with the Companies’ efforts to provide the data and administer the specific CCA project plus a market value for providing the services. In no instance shall the price be less than the actual costs to provide the services.

The Companies’ cost for providing the services will be calculated as a dollar value per eligible customer to participate in the proposed CCA program and will include costs for:

- a. Information Technology (IT) and IT support services for information system changes, queries, EDI processing, and some retail access block script running for Low Income customers; and
- b. Retail Access and CCA administration for administrative oversight of the CCA Program, EDI testing and setup, and document management; and
- c. Customer Service support, including addressing incremental customer calls to utility call centers resulting from CCAs and ESCOs contacting customers during the opt-out and enrollment periods; and
- d. Legal costs associated with review of individual CCA Implementation Plans and management and review of Data Services Agreements; and
- e. Market value fee for providing the services as may be mutually agreed upon by the Companies and the CCA Administrator.

The Companies will file the fee for the fixed charges (on a per customer basis) with the Commission on not less than 30 days’ notice.

¹ On June 6, 2016, the Commission granted an extension until August 5, 2016 to submit the compliance filing.
