RE: Case 19-E-0079, In the Matter of the Continuation of Standby Rate Exemptions

Dear Secretary Phillips:

Consolidated Edison Company of New York, Inc. (the “Company”) is filing with the Public Service Commission (the “Commission”) amendments to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Electric Tariff”), applicable to its customers in the City of New York and the County of Westchester. The Company is also filing amendments to its Schedule for PASNY Delivery Service, P.S.C. No. 12 – Electricity (the “PASNY Tariff”),¹ applicable to delivery by the Company of power and associated energy to Authority Public Customers under the PASNY Tariff.

The revised Electric Tariff and PASNY Tariff Leaves, which are identified below, are filed to become effective on June 1, 2023.

Reason for Filing

The Commission's Order Continuing and Modifying Standby Rate Exemptions (the "Exemption Order"), issued and effective May 18, 2023, in Case 19-E-0079 directed continuance and modification of certain exemptions from Standby Service rates.

Tariff Changes

Pursuant to the Exemption Order, the Company made the following changes to the Electric and PASNY Tariffs, as applicable:

- The standby rate exemption sunset date for customers taking service under SCs 1, 2, or the energy-only rate of SC 12 has been removed from General Rule 20.3.1 of the Electric Tariff.
- The definition of "Customer With Designated Technologies" in General Rule 20.3.2 of the Electric Tariff has been expanded to include the following technologies for on-site generation facilities having an in-service date on or after June 1, 2023: fuel cells which do not utilize a fossil fuel resource in the process of generating electricity; solar thermal; photovoltaics; on land and offshore wind; hydroelectric; geothermal electric; geothermal ground source heat; tidal energy; wave energy; and ocean thermal. The Company also specified that, for fuel cell technologies which utilize biofuels or hydrogen, the manufacture or production of such fuels cannot include the combustion or electrolysis of fossil fuels, or the use of fossil fuel or non-renewable grid power in the conversion process.
- Rider R of the Electric Tariff and the Net Metering and Value Stack Tariff for PASNY Customer-Generators section of the PASNY Tariff have been amended to specify that fuel cells served under Phase One NEM and the Value Stack Tariff will

be billed pursuant to the updated designated technologies standby rate exemption provisions.²

- Form G – Application for Rider R or Standby Service and/or Buy-Back Service in the Electric Tariff has been amended to reflect the updates to the standby rate exemptions.

Conclusion and Notice

As directed by Ordering Clause 1 of the Exemption Order, this filing is being made on not less than one day's notice to become effective on a temporary basis on June 1, 2023. Pursuant to Ordering Clause 6 of the Exemption Order, the Commission has waived the requirement for newspaper publication of these tariff changes.

Questions regarding this filing can be directed to Ricky Joe at (212) 460-4995.

Sincerely,

/s/ William A. Atzl, Jr.
Director
Rate Engineering Department

² Corresponding changes were made to General Rule 20 of the Electric Tariff to clarify the applicability of Standby Service rates to Phase One NEM and Value Stack fuel cell customers. In addition, the Company reverted the numbering of certain options under the PASNY tariff that were inadvertently re-numbered in a past filing.
