RE: Annual Electric Vehicle Surcharge (“EVS”) Filing

Dear Secretary Phillips:

Orange and Rockland Utilities, Inc. (the “Company”) herein submits for filing its Statement of Electric Vehicle Make Ready Surcharge, Statement No. EVS-3, to its Schedule for Electric Service, P.S.C. No. 3 – ELECTRICITY (the “Tariff”). This statement is issued January 17, 2023 to become effective February 1, 2023.

This filing is made in accordance with General Information Section No. 16.9 of the Company's Tariff which requires an annual EVS filing pursuant to the Commission's July 16, 2020 order in Case 18-E-0138, *Proceeding on Motion of the Commission Regarding Electric Vehicle Supply Equipment and Infrastructure*.

The Company's current EVS surcharges are structured to: (1) allocate the costs to all service classifications in proportion to each class' delivery revenues; (2) provide for the recovery of the costs from non-demand billed service classifications on a kWh basis and from demand billed service classifications on a kW basis. For customers billed on Standby Service rates the surcharge will be collected on a per kW of Contract Demand basis. The surcharges per kWh or kW are determined by dividing allocable costs by estimated billed kWh deliveries or kW demands over the collection period.

The proposed surcharges on Statement No. EVS-3 are based on annual actual Electric Vehicle Make Ready costs for the 2022 program year. The EVS surcharges will be reconciled annually at the end of each program year. Any over-or under-collection as a result of this reconciliation will be reflected in the following year's EVS surcharges. The resulting EVS surcharges by service classification for the 2022 program year (i.e., to be recovered effective February 1, 2023) can be found on Statement No. EVS-3.

Questions regarding this filing can be directed to Cheryl Ruggiero at (212) 460-3189.

Sincerely,

/s/
William A. Atzl, Jr.
Director – Rate Engineering
