Reason for Filing

This filing is made pursuant to the Commission's *Order Approving Energy Storage Resource Participation in Wholesale Markets*, issued and effective August 16, 2022, in the above-referenced cases (the "Order"). The Order authorized the Company to operate its energy storage systems to bid energy, capacity, and/or ancillary services into the New York Independent System Operator administered wholesale markets when not being operated for system reliability. The Order also specified that 100 percent of the net revenues associated with the dispatch of Company-owned energy storage systems be allocated to the Company's customers.

Tariff Changes

Pursuant to the Order, the Company revised General Information Section No. 16.1 – Energy Cost Adjustment ("ECA") of the Electric Tariff to add a component to the Variable ECA that will be used to allocate to customers 100 percent of the net revenues associated with the dispatch and wholesale marketing of the energy, capacity and/or ancillary services of Company-owned energy storage systems, less any costs incurred to do so.
