June 15, 2022

Honorable Michelle L. Phillips, Secretary  
State of New York  
Public Service Commission  
Office of the Secretary, 19th Floor  
Three Empire State Plaza  
Albany, New York 12223-1350

**RE: Case 19-G-0310– Proceeding on Motion of the Commission as to the Rates,  
Charges, Rules and Regulations of KeySpan Gas East Corporation d/b/a/  
National Grid for Gas Service.**

**Gas Safety and Reliability Surcharge (“GSRS”) for KeySpan Gas East  
Corporation d/b/a National Grid**

Dear Secretary Phillips:

KeySpan Gas East Corporation d/b/a National Grid (“the Company”) hereby submits its Statement of Gas Safety and Reliability Surcharge (“GSRS”) in accordance with Leaf 119.52.2 of its gas tariff, PSC No. 1 and Section 3.10 of the Joint Proposal adopted by the New York State Public Service Commission in its order dated August 12, 2021 (the “Order”) in the above-referenced matter.

The KEDLI leak prone pipe (“LPP”) retirement figure represents LPP retirement footage completed between April 1, 2021 and March 31, 2022. These projects are in various stages of closeout and certain of the projects submitted as part of this filing have “design” footage in place of “actual” footage until final closeout of project documentation occurs. “Design” footage represents a conservative estimate of the LPP retirement and, therefore, final closeout commonly results in the increase of LPP footage claimed per project. Once these remaining projects are closed out, the Company will determine the actual LPP footage for each project. For this reason, final closeout of all calendar year (“CY”) 2021 documentation may require an adjustment of the claimed LPP retirement footage in the following year’s annual filing.

This filing uses the rate allowance levels approved in Case 19-G-0310. The Company has calculated the GSRS related to the period April 1, 2021 through March 31, 2022, including prior year total imbalance. Effective July 1, 2022 through June 30, 2023, the following GSRS will be implemented:

- Service Classification Nos. 1, 2, 3, 9, 15, 16, 17 and 5: \$0.00357 per therm.

Attachment 1 contains the calculations used to develop the GSRS.

Because the GSRS rate is one of the components included in the Statement of Delivery Rate Adjustment (“DRA”), the DRA statement will be filed once all July 1<sup>st</sup> rate statements have been submitted.

Questions pertaining to this filing may be directed to Melissa Barnes at [Melissa.Barnes@nationalgrid.com](mailto:Melissa.Barnes@nationalgrid.com).

Respectfully Submitted,

*/s/ Melissa M. Barnes*
