**VIA ELECTRONIC FILING**

Honorable Michelle L. Phillips, Secretary  
New York State Department of Public Service  
Three Empire State Plaza  
Albany, NY 12223-1350

RE: Case 09-G-0716 – Proceeding on Motion of the Commission as to the Rates,  
Charges, Rules and Regulations of New York State Electric & Gas Corporation for Gas  
Service – Weighted Average Cost of Capacity Statement

Dear Secretary Phillips:

In compliance with the New York State Public Service Commission's Order Adopting Revised Gas Supply Procedures and Requirements and Directing Tariff Filings, issued and effective October 18, 2012, New York State Electric & Gas Corporation ("NYSEG" or "Company") hereby files the following Weighted Average Cost of Capacity Statement ("WACC Statement") to be effective April 1, 2022.

WACC Statement No. 15 to PSC No. 88 Gas

In accordance with NYSEG's tariff, the Company shall reset the capacity release rate if in any month, the actual Weighted Average Cost of Capacity ("WACOC") differs from the calculated WACOC by more than 5%.

The release prices set forth in the WACC Statement are reset because the 5% threshold change has been met. The change is primarily due to a rate increase that was filed by Eastern Gas Transmission and Storage ("EGTS") with the Federal Energy Regulatory Commission on September 30, 2021<sup>1</sup>. NYSEG notified Energy Services Companies ("ESCOs") of the EGTS rate increase through the Gas Transportation tracking system on November 3, 2021, and again on January 6, 2022.

Please direct any questions to me at (607) 644-8773.

Respectfully submitted,
