Honorable Janet H. Deixler
Secretary
Public Service Commission
3 Empire State Plaza
Albany, New York 12223

Re: Case No. 02-G-0064

Dear Secretary Deixler:

This revised tariff leaf, issued by New York State Electric & Gas Corporation ("NYSEG" or the "Company"), is transmitted for filing in compliance with the requirements of the Public Service Commission of the State of New York.

Tariff Amendments

Eighth Revised Leaf No. 9 to PSC 90 Gas

Effective July 4, 2002

Proposed Revisions

NYSEG is filing a revision to its January 18, 2002 and March 28, 2002 filings in Case No. 02-G-0064.

Background

On January 18, 2002, NYSEG submitted its annual tariff filing to revise the flat rate per foot for incremental service line installation in compliance with an Order dated April 22, 1993 in Case No. 93-G-0106. The January 18, 2002 filing revised the rate from \$3.15 per foot to \$2.53 per foot. Subsequent to the January filing, NYSEG reviewed and revised the methodology by which the incremental service line cost was developed. As a result, NYSEG filed a further revision to the original filing on March 28, 2002 to reflect the cost derived by the revised methodology, resulting in a rate of \$4.61 per foot.

Staff's review of the March 28, 2002 filing resulted in discussions between Staff and NYSEG, and it was determined that NYSEG would continue to use the existing methodology and file a further revision that results in a \$3.85 per foot charge. This tariff filing reflects that rate.

Pursuant to 16 NYCRR 720-2.4, NYSEG requests that this filing be allowed to become effective on short notice on June 24, 2002, the date the tariff leaf filed on March 28, 2002 was to become effective.

If you have any questions regarding this tariff revision, please contact Susan Gallia at (607) 762-7265.

Very Truly Yours,

/dlm
Encls.
