Re: **Case 00-M-0504**

Dear Secretary Deixler:

Orange and Rockland Utilities, Inc. ("O&R" or "the Company") hereby submits for filing the following tariff leaves proposing revisions to its Schedule for Gas Service, P.S.C. No. 4 – Gas.

Leaf 166.11

Revision 2

These tariff leaves are issued June 14, 2002, to become effective on a temporary basis on June 15, 2002, in compliance with the Commission's Order (the "Order") issued May 9, 2002 in the above referenced case. Ordering Clause 1 of the Order required the Company to file tariff changes on not less than one day's notice within 30 days of the issue date of the Order. The Company requested and received a postponement to file no later than June 14, 2002. Thus, this filing is being issued on one day's notice, with an effective date of June 15, 2002.

This filing is being made in compliance with the Commission's Order directing the Company to address the requirements of ESCOs in their role of requesting, accepting and administering deposits and prepayments from their customers. These requirements have been added to Service Classification No. 11 of the Company's gas tariff as Special Provision J.¹

¹ Please note that on June 10, 2002, the Company filed a request for rehearing of the May 9, 2002 order in this proceeding. The Company will make further amendments to its Rate Schedule consistent with the Commission's disposition of that rehearing request.

Honorable Janet H. Deixler

2

The requirement for newspaper publication has been waived as per the May 9 Order. The Company is serving copies of this filing by email to all marketers serving customers in the Company's retail access program.

Questions concerning this filing can be directed to me at (212) 460-3308.

Sincerely,

William Atzl, Jr.
