Albany, NY 12223-1350

Re: Rochester Gas and Electric Corporation
Tariff Filing – Farm Wind Net Metering

Dear Secretary Brillling:

Rochester Gas and Electric Corporation ("RG&E" or "the Company") hereby submits for filing the following enclosed tariff leaf in compliance with Chapter 721 of the Laws of 2006 that amended farm wind net metering. This filing is also made in accordance with Appendix 7-H (electronic tariff filing system) to the Commission's Codes, Rules and Regulations (16 NYCRR Appendix 7-H).

PSC No. 19 –Schedule for Electric Service
Leaf No. 160.34, Revision 1

Effective March 22, 2007

Description of the Proposed Revisions

On September 13, 2006, a bill was signed into New York State law as Chapter 721 of the Laws of 2006, amending net metering. This amendment to New York State Public Service Law Section 66-l provides clarification for the definition of a "farm service customer-generator" that is eligible for net energy metering. Such customer is defined as a customer of an electric corporation who owns and operates wind electric generating equipment located and used on land used in agricultural production, as defined in Subdivision 4 of Section 301 of the Agriculture and Markets Law, and which is also the location of the customer's primary residence. RG&E hereby submits this tariff filing in compliance with the amended law.

Newspaper Publication & SAPA

The Company requests that the requirement of § 66(12)(b) of the Public Service Law and 16 NYCRR §720-8.1 as to newspaper publication be waived because a customer will be notified of these tariff changes when the customer submits an application for such service with the Company.

Honorable Jaclyn A. Brillling, Secretary
