Also included is Revenue Tax Statement No. 33. All other gas cost or rate changes for billing were filed in the Company's monthly gas cost filings with the Commission effective August 1, 2005.

- 4 -

In addition, the Company is clarifying how it intends to implement the changes associated with its symmetrical sharing ("90/10") filing. The new period for calculating the 90/10 filing is August – July. Any refund or surcharge will be passed back or collected November – October. Under the prior tariff the period October – September was used for the calculation which was surcharged or refunded during the period January – December. Since the two periods now overlap the Company plans to do the next filing for the period October 2004 - July 2005 (10 months) and surcharge or refund the customer during the period January - October 2006. Beginning in November 2006 the billing to the customer will be based on the filing requirements included in the tariff effective August 1, 2005.

A copy of this filing will be made available to all active parties in Case 04-G-1047 by a posting on the Company's web site together with an e-mailed notice offering a hard copy upon request. Notice to the public of the proposed changes will be published in area newspapers once a week for four successive weeks, and proof of publication shall be filed with the Commission.

Respectfully submitted,

Michael W. Reville
