November 30, 2004

Jaclyn A. Brillling, Secretary
State of New York Department of Public Service
Three Empire State Plaza
Albany, New York 12223-1350

Dear Secretary Brillling,

By this letter the Edgewood Lakes, Inc. is formally requesting that the Department of Public Service's Water Rates Section electronically file First Revised Leaf No. 12, on its behalf, since it does not have the capability to make the electronic filing itself. We are requesting that the above leaf be filed with a June 1, 2005 effective date.

The filing is designed to increase annual revenues by about \$5,130 or 61.07%. The current annual bill of customers is \$420 and would be increased to \$676.50.

The rate increase is designed to allow us the opportunity to recoup increased operating costs (attached is a copy of a proposed income statement and a proposed rate leaf (No. 12, Revision 1).

We are also requesting waiver of the requirement of newspaper publication of the proposed changes since we will notify our customers of the proposed changes individually by mail.

Sincerely,

Evelyn Haas, President
Edgewood Lakes, Inc.
