Re: Case No. 09-E-0228 – Tariff Filing of Rochester Gas & Electric Corporation to Modify its Tariff Regarding Fixed Transition Charges.

Dear Secretary Brillling:

Rochester Gas & Electric Corporation ("RG&E" or the "Company") hereby submits for filing the following enclosed tariff leaves in compliance with Ordering Paragraph 1 of the New York Public Service Commission's (the "Commission") Order Adopting Terms and Conditions for Non-Bypassable and Variable Commodity Charges, Case No. 09-E-0227, issued and effective September 28, 2009 (the "Order"). This filing is also made in accordance with Appendix 7-H (electronic tariff filing system) to the Commission's Codes, Rules and Regulations (16 NYCRR Appendix 7-H).

PSC No. 19 – Electricity, Schedule for Electric Service

Leaf No. 160.26.1, Revision 2

Leaf No. 160.26.2, Revision 0

Leaf No. 167, Revision 4

Leaf No. 195.2, Revision 4

Effective: January 1, 2010

The Commission determined in the Order that when a variable commodity charge is combined with a variable NBC that is calculated on the basis of a forecast with a true-up, customers may experience significant volatility.

To reduce volatility for non-demand billed customers, RG&E will forecast the variable supply charge for each month in a manner similar to that used to forecast the NBC, based on energy futures prices¹. The Company will calculate true-ups for both the supply and NBC charges and pass back to customers in a subsequent month. This revised method will reduce volatility, as the NBC and variable charges will move in opposite directions depending upon changes in energy futures prices.

Due to the discontinuances of the transition demand charge, the Company is also filing revisions to its Minimum Demand Charges for the affected service classes.

¹ The Commission issued an Errata Notice on October 2, 2009 to clarify that the forecast of the commodity charge is to apply to non-demand billed customers.

Honorable Jaclyn A. Brillling, Secretary
