Re: Case No. 07-M-0548 – Proceeding on Motion of the Commission
Regarding an Energy Efficiency Portfolio Standard

Dear Secretary Brillling:

National Fuel Gas Distribution Corporation (“Distribution” or the “Company”) submits the following revisions to its tariff, P.S.C. No. 8 - GAS:

Leaf No. 148.9 Revision 7
Leaf No. 148.9.1 Revision 0
Leaf No. 148.9.2 Revision 0

The proposed revisions are issued as of today for an effective date of October 1, 2010.

This is a compliance filing. The proposed amendments modify the Company’s Conservation Incentive Program (“CIP”) funding mechanism to fund residential, commercial and industrial programs as directed by the Commission in Order Case 07-M-0548 - Order Approving Three New Energy Efficiency Portfolio Standard (EEPS) Programs and Enhancing Funding and Making Other Modifications for Other EEPS Programs; issued and effective June 24, 2010. In addition, the Company is including in its tariff the funding amounts included in the order that will be in effect for calendar year 2011. The proposed rates will be included in the billing statements filed with the Commission to be effective October 1, 2010. The Agriculture Energy Efficiency Program was allocated to all large transportation customers (TC 1.1 – TC 4.1) as the Order stated it was part of the Existing Facilities Program. Attached are workpapers that calculates the rates that are proposed to be effective October 1, 2010 and January 1, 2011.

Description of Amendments

The proposed amendments implement the Order by revising General Information and service classifications rates to provide a means of funding the pertinent Residential, Commercial and Industrial Customer Energy Efficiency programs from the applicable customer classes. Amounts sought for collection are set forth on the applicable tariff sheets and conform to the amounts approved in the Order. All funds collected under the CIP recovery mechanism, including the additional funds under the Orders, are subject to reconciliation.

Hon. Jaclyn A. Brillling
