RE: Case 11-E-0176, Recharge New York Program

Dear Secretary Brillling:

Consolidated Edison Company of New York, Inc. ("Con Edison" or the "Company") is filing with the Public Service Commission (the "Commission") an amendment to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the "Electric Tariff"), applicable to the Company's customers in the City of New York and the County of Westchester. The tariff leaf, which is identified below, has an effective date of July 1, 2012:

Leaf 459: Revision 2, Superseding Revision 1

Background

By its Order, issued and effective January 20, 2012, in Case 11-E-0176, In the Matter of the Commission's Implementation of Certain Provisions of the Recharge New York Power Program Act, the Commission approved, on a permanent basis, the Company's tariff changes that were filed to implement reduced delivery rates to commercial and industrial customers who receive Recharge New York ("RNY") power allocations pursuant to the RNY Power Program Act (L. 2011, c. 60, Part CC). Pursuant to the Company's Electric Tariff, customers who receive an RNY allocation under the RNY program are billed under Special Provision G of Service Classification ("SC") 9. Special Provision G of SC 9 states that customers will commence or terminate service under this Special Provision as of the customer's first cycle billing date that begins at least ten days after the New York Power Authority ("NYPA") provides notice to the Company of an RNY allocation or termination, as applicable. The only exception is for customers who receive service under Rider Q – Power for Jobs Program as of June 30, 2012, the date the Power for Jobs Program expires. If NYPA advises the Company in advance that a Rider Q customer will receive RNY commencing July 1, 2012, the customer will be billed under RNY consecutively with the termination of its PFJ participation.

Reason for Filing

In a letter dated May 24, 2012, NYPA advised the Company that, as of June 30, 2012, it will terminate its bundled service contracts with certain of its customers and its power sales agreements with the Municipal Distribution Agencies (New York City Public Utility Service (“NYCPUS”) and County of Westchester Public Utility Service Agency (“COWPUSA”), together referred to as the “MDAs”) that serve customers in Con Edison’s service territory. NYPA and the MDAs have agreements with Con Edison for delivery service under the Company’s Schedule for Economic Development Delivery Service, P.S.C. No. 11 (the “EDDS Rate Schedule”). The Company proposes to allow customers who were formerly served under the EDDS Rate Schedule to be billed under RNY as of July 1, 2012, if NYPA has provided prior written notice of all information necessary for billing. Without this change, the Company will not be able to commence billing the customer under RNY until the customer’s next cycle billing date. The customer would, thus, be denied RNY power and energy for the period between June 30 and the next billing date.

Conclusion and Notice

The Company respectfully requests waiver of the public notice requirements of the proposed tariff change. This change will affect only a small number of customers, who will be advantaged by this filing.

It is in the public interest to expedite this change, which will benefit economic development customers who receive RNY. The Company, thus, requests emergency adoption of this filing as of July 1, 2012.

Sincerely,

/s/ Christine Colletti
Director
Rate Engineering Department
